## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-43, 46-79, and 91-124, drawn to managing a service, classified in class 370, subclass 395.21
- II. Claims 35-40, 80-85, and 125-130, drawn to managing a service agreement with service template generation, classified in class 709, subclass 223.
- III. Claims 41-45, 86-90, and 131-135, drawn to configuring a network to carry traffic, classified in class 370, subclass 230.1.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because invention I has separate utility such as method of managing a service which does not require a method of managing a service agreement with service template generation of invention II or a method of configuring a network to carry traffic of invention III.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2663

4. Because these inventions are distinct for the reasons given above and the search required

for Group I is not required for Groups II and III, restriction for examination purposes as

indicated is proper.

5. A telephone call was made to Mr. David Moore on 9/30/2005 to request an oral election

to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37 CFR

1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR

1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Nittaya Juntima whose telephone number is 571-272-3120. The

examiner can normally be reached on Monday through Friday, 8:00 A.M - 5:00 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Ricky Ngo can be reached on 571-272-3139. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.
